Newforma Project Center Mobile Apps

Manage project information on the go.

Because Newforma apps are integrated with Newforma® Project Center, information entered once is available to team members whether they're working in the office, in the job trailer, or in the field.

Project Email app
Access to filed project emails

- Use on iPads and iPhones, Android smartphones and tablets, and Windows smartphones and tablets.
- Download attachments to emails filed by your project team.
- When connected to the internet, search full contents and attachments.
- Reply and forward as needed.

Plans app
Project documents at your fingertips

- Each project's most current project plans and specifications are delivered automatically to your iPad.
- Mark up and email documents while in the field.
- Zoom and pan documents quickly.
- Create and locate field notes, punch list items, and action items directly on the relevant plan.
- Hyperlink plans and specifications to other plans.
- Designate your favorite plans for quick access.

Capture app
For action items, field notes, punch list items, more

- Use on iPads and iPhones.
- Move quickly through the site – the app stores data locally until you upload it, permitting faster captures.
- For each captured item, define what it is, where you observed it and, if applicable, who and when somebody needs to respond.
- Snap, mark up, and attach photos to captured items.
- Upload items to Newforma Project Center to be managed by you or team members.
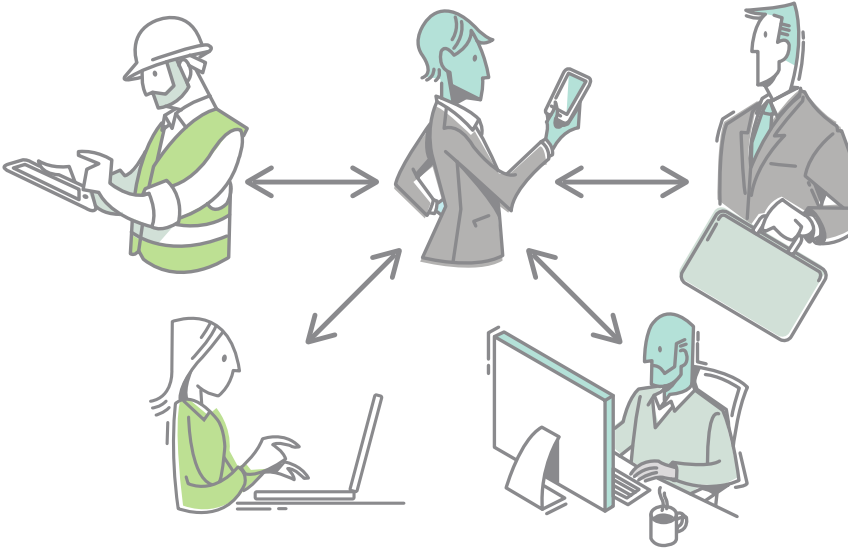

Keep it simple:

See it.

Classify it.
Photograph it.

Assign it.

Describe it.
Move on.

"A great
success!"

Project Teams app
Your team, in the field

- Use on Apple and Android smartphones and tablets.
- Find contacts and companies organized by project.
- Call, email, or text project contacts with a single click.
- Automatic updates ensure information is always current.

Tasks app
One stop for field management

- Use on for for iPads and iPhones.
- Manage field tasks, including action items, field notes and punch lists.
- View past-due or coming-due items for any assigned team member.
- Update statuses, descriptions, locations, and assignments.
- Add a photo, or include one from the Camera Roll.
- View the comment history or leave a new comment.
- Filter items by type, status, space, assignee, originator, due date, discipline, and spec section.

Strategic benefits

- Improved productivity
- Increased responsiveness
- Superior risk management
- More informed decision-making
- More complete project records

"This is awesome!"
